Announcement

To all my friends and fellow Shorthorn Breeders I wish to extend a cordial invitation to attend this dispersion sale of the Braebourne herd of Shorthorns.

It is ten years since the foundation of this herd was purchased and we do feel considerable pride in what we have accomplished in that short time. You will find in this herd a uniformity of type, color and breeding that is not found every day. Turn to the picture of the group of sale cows in this catalogue and I am sure you will agree with the above statement.

The health of the herd was never better and you will not find a single shy breeder or nonproducer in the herd. Every cow and heifer old enough has produced a calf within the last year. All heifers of breeding age are safe in calf and every female in the sale bred by us has been calfhooed vaccinated with the exception of the young heifer calves. We have never had a T. B. or Bang reactor and regardless of this being a dispersal sale everything is fully guaranteed.

With the exception of the animals shown at Sioux Falls and Spencer the sale cattle are not in show condition. Neither are they thin but in that pink of breeding condition that we have proven to be the most profitable for regular breeding, heavy milk flow and development of rugged healthy calves.

This year for the first time we will show at two of the larger fairs. At this writing we are back from the Sioux Empire Fair at Sioux Falls and had the honor of winning four firsts and the grand championship on bulls and the reserve championship on females. Were this not a dispersion these animals would never be for sale. But now they are offered without reserve to the highest bidder.

We feel certain that these cattle will go out and do for the buyers what they have done for us because they are healthy, they are in ideal breeding condition, they have good colors and the uniformity of type and breeding to do the job.

—Martin Luinstra.

General Information

Location: The sale will be held at the farm located 6 miles south, 2 miles east and $\frac{1}{2}$ mile south of Rock Rapids. Parties coming from south on Highway 75 watch for large bridge and turn east just south of bridge. Farm is on gravel road $10\frac{1}{2}$ miles straight north of Hull.
